

## Steel Concrete Composite and Hybrid Structures

**Editor:** Dennis Lam

University of Leeds, UK

### About the Book

Steel Concrete Composite and Hybrid Structures will be an invaluable source of information to researchers and practitioners in the field of steel, composite and hybrid structures. This book contains the most recent research findings from leading researchers in the world on steel, composite and hybrid structures.

### Topics covered includes:

- composite beams;
- composite bridges;
- composite columns;
- composite coupled wall;
- composite slabs;
- CFRP composite structures;
- dynamics,
- earthquake and impact;
- fire behaviour;
- hybrid structures;
- progressive collapse;
- steel and composite connections;
- structural analysis;
- shear connections; and
- thin-walled structures.

**Readership:** Undergraduates and graduate students in structural engineering. Practicing engineers and researchers.
